

Setting Up a MyCOD Email Account on Android

Android – Samsung app

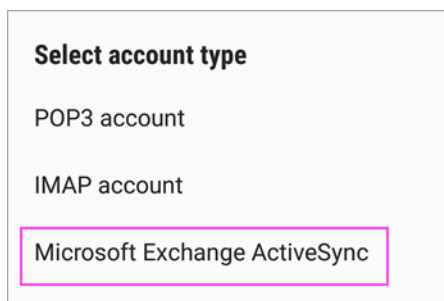

1. Open the Samsung Email App and tap **Add Account** if it's your first time.
Or, go to **Settings** in the app > **Add Account**.

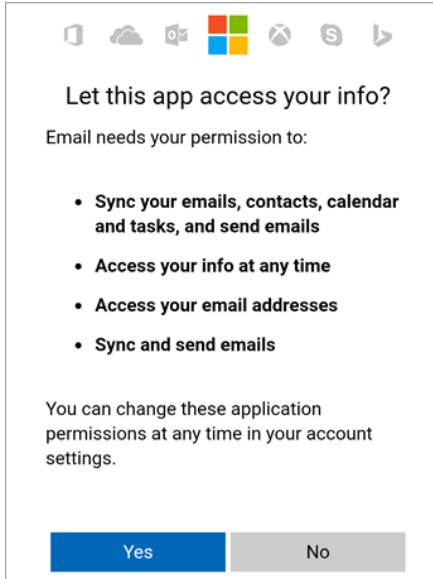

2. Enter your email address and password. Tap **Sign in**.
Note: if the email app detects your provider, you may be redirected to a different sign in screen.

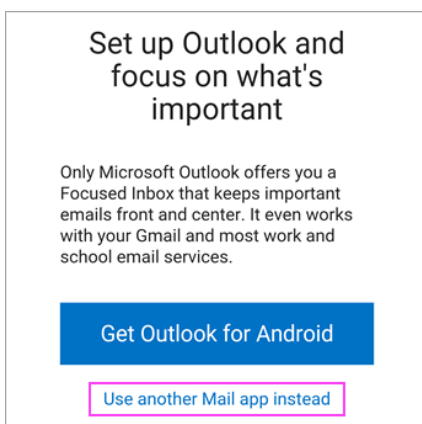

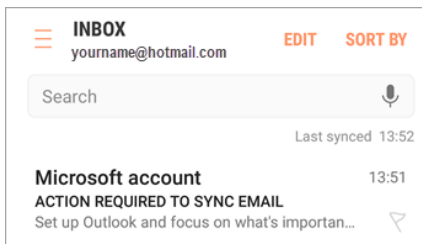

3. If you are prompted to select account type, choose **Microsoft Exchange ActiveSync** to sync contacts and calendars.

4. Tap **Yes** or **OK** to confirm settings and permissions. What you see may vary depending on what kind of account you are setting up.

5. If you have turned on two step-verification, you will need to verify your identity with your chosen method.
Syncing email, contacts, and tasks, may take a few minutes.
6. If you see an email that says, "Action Required to Sync," open it and tap **Use another Mail app instead**. If you do not see this message, skip this step.
