

## The TEAS and You...

- \* **All** students accepted provisionally into the RN Program must take the TEAS test.
- \* Acceptance remains provisional until passing the TEAS.
- \* Students who have already taken and passed the TEAS must have their results reported directly from ATI to the Nursing Program before the TEAS orientation session. (\*\*see below) If scores are not received prior, you will need to attend the orientation.
- \* Those students who have received notification that they have been provisionally accepted into the RN Program and who have not yet passed the TEAS must attend the TEAS orientation session.
- \* TEAS taken at College of the Desert will automatically have results recorded for your student file at no cost.
- \* Unless you are given other instructions, you will have access to your scores after all scheduled testing sessions are complete.
- \* A score of 67% is necessary to pass the TEAS.

**\*\***To have your TEAS scores released to the College of the Desert you will need to visit the ATI website and purchase your report.

Choose the "*Students*" category on the main page and then follow the link for "*Entering Nursing School—TEAS.*"

Near the bottom of the page you can add "*ATI Test of Essential Academic Skills (TEAS)®*" to your shopping cart. Follow the links to purchase the report and give them instructions to send it to COD. Currently the cost is \$20. Once this is ordered, ATI normally reports your results to COD within approximately one to two working days.
