

College of the Desert Community Forum

March 1 & 2, 2017

College of the Desert invites you to an important community forum to help us shape and update the college's Educational Master Plan to guide us through 2022.

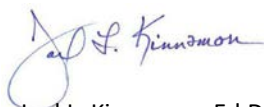

It's an exciting time at COD as we continue to expand in order to best serve and provide a higher education to students throughout the Coachella Valley, from Desert Hot Springs and Palm Springs in the west to Mecca and Thermal in the east. With the launch of the new pLEDGE program that will guarantee free tuition to the 2017 local high school graduates this fall and the passage of Measure CC, the college will continue to grow.

But it's crucial, as we move forward, that we as a community continue to challenge ourselves to update and improve the Educational Master Plan – our blueprint for the programs, degrees, certificates and services we provide our students in collaboration with our valley's K-12 and university partners in order to meet the current and future needs of our workforce and local economy.

WE WANT TO HEAR FROM YOU

As a Coachella Valley community leader, your feedback is invaluable and we invite you to provide your insights and contribute your ideas to ensure our growing college continues to best serve our students and our desert community. Together, let's set the trends that other institutions will want to follow.

We look forward to you sharing in this journey and appreciate your commitment.

Joel L. Kinnamon, Ed.D.
Superintendent/President
